INSIDE THIS BRIEF

01

What Lumi does

6 capabilities in one orb

02

Extensibility

Hermes · OpenClaw · Skills

03

Lumi subscriptions

Personal · Pro · Team

One signed-in orb. Chat, capture, record, repair.

On-device by default. System-tray native. One-tap browser handoff.

Six things *in one orb.*

All on your machine.

01 Floating Orb

A smiley in your system tray + always-on-top overlay. One global shortcut brings it back. Browser handoff for sign-in -- no passwords to retype.

TRAY + SHORTCUT

AUTO-START ON LOGIN

02 Chat & AI Brain

Chat from a control window with settings and a brain view. Multi-provider streaming. Local Claude Code CLI and OAuth Claude sessions. Chats, projects, skills, attachments all persist.

MULTI-PROVIDER

CLAUDE CODE CLI

PERSISTENT MEMORY

03 Screen Capture & Recording FLAGSHIP

One-click screenshots with annotation editor. Area, window, full-screen pickers. Screen + audio recorder with floating bar, preview, stop pill. Webcam pip. Full video editor for trim + export.

ANNOTATE

WEBCAM PIP

VIDEO EDITOR

04 Documents & Files

Drop-catcher accepts files anywhere on screen. Markdown worker converts Office and PDF to clean markdown. OpenClaw local gateway routes and searches files. Built-in viewer.

DROP-CATCHER

MARKITDOWN

LOCAL SEARCH

05 Proactive PC Helper

Watches for app hangs, memory pressure, disk problems, boot/resume issues. Trims working sets, manages power plans, catches unsaved-data risks, flags stuck installers.

BACKGROUND WATCHER

POST-RESUME SWEEPS

06 SysOps Repair Toolkit

A loopback service searches files, runs diagnostics, executes repair runbooks. PowerShell-driven app resolver. Self-learning -- remembers which fixes worked.

POWERSHELL RUNBOOKS

SELF-LEARNING

Two runtimes.

Open to your tools.

Hermes

BUNDLED PYTHON RUNTIME · IN-PROCESS

A Python interpreter ships inside Lumi. Drop in custom adapters and HTTP-based plugins -- Hermes loads them at launch.

- Bundled interpreter · zero setup
- HTTP plugins
- Hot-reload on file change

OpenClaw

LOCAL AGENTIC GATEWAY · ACTS ON YOUR PC

A local gateway gives Lumi safe, structured tools to act on your machine -- file search, routing, shell, and your installed apps.

- File router & search
- Shell + app actions
- Skills store

+ ALSO IN THE BOX

+ Meeting transcription

auto-detects calls, captures audio sessions

+ Phone gate & support-talk

SMS/voice features inside the control window

+ Heartbeat & device card

per-device status, opt-out telemetry

+ Lock & blocker overlays

session lock + focus blocker for deep work

+ Auto-updater + crash report

rollback baked in, postmortems shipped home

+ Shell-fragment quarantine

auto-sweeps junk from stray paste accidents

You set the rules. Lumi runs the loop.

Background watcher · post-resume sweeps · self-learning repair runbooks

One orb. *Priced like software.*

Three tiers. Cancel any time. Annual billing saves 20%.

Lumi *Personal*

For one curious mind & one machine.
